# KESS3 MASTER

KESS3 combines 3 operating modes in a single device. OBD, Bench & Boot Mode. Configure it according to your requirements and work. Initialize your KESS3 as required by choosing your vehicles of interest and exploring all the possible configurations.

Code	Product	Price (EUR)
KESS3HW000	KESS3 - Hardware	600,00 €

Code	Product	Price (EUR)
KESS3MA001	KESS3 Master - Car - LCV OBD Protocol activation	2.990,00 €
KESS3MA002	KESS3 Master - Bike - ATV & UTV OBD Protocol activation	1.290,00 €
KESS3MA003	KESS3 Master - Agriculture - Truck & Buses OBD Protocol activation	2.990,00 €
KESS3MA004	KESS3 Master - Marine & PWC OBD Protocol activation	1.290,00 €
KESS3MA005	KESS3 Master - Car - LCV Bench-Boot Protocol activation	2.490,00 €
KESS3MA006	KESS3 Master - Bike - ATV & UTV Bench-Boot Protocol activation	890,00 €
KESS3MA007	KESS3 Master - Agriculture - Truck & Buses Bench-Boot Protocol activation	2.490,00 €
KESS3MA008	KESS3 Master - Marine & PWC Bench-Boot Protocol activation	890,00 €

All activations on a new hardware include 12 months of subscription.  
All activations added to an already configured hardware will inherit the same expiry date of the existing activation.

# KESS3 SLAVE

The files read by the «Slave» version are encoded.  
This means that you exclusively work with modified files provided by your reference «Master».

KESS3 combines 3 operating modes in a single device.  
OBD, Bench & Boot Mode. Configure it according to your requirements and work.  
Initialize your KESS3 as required by choosing your vehicles of interest and exploring all the possible configurations.

Code	Product	Price (EUR)
KESS3HW000	KESS3 - Hardware	600,00 €

Code	Product	Price (EUR)

All activations on a new hardware include 12 months of subscription.  
All activations added to an already configured hardware will inherit the expiry date of the existing activation.

# KESS3 SUBSCRIPTION AND SERVICES

The activation of new protocols, the virtual reading service, web services related to the protocol functioning and technical assistance are services available with an active subscription. The subscription is unique and there is no distinction between the types of vehicles, or the communication methods purchased. The only discriminating factor is the tool version and the subscription length.

## KESS3 MASTER

Code	Product	Price (EUR)
KESS3MS001	KESS3 Master - 12 Months of subscription	1.190,00 €

# ECM TITANIUM

ECM Titanium is our Remap software suite developed by Alientech that enables you to interpret and modify the maps contained in the original files of the ECUs and TCUs.

**VERSION**

**DRIVER MAKER**

**SUBSCRIPTION  
AND CREDITS**

# ECM TITANIUM VERSION

## ECM TITANIUM Full.

A comprehensive solution in which you have dedicated technical assistance, up to 100 drivers per day available for download for cars, bikes, tractors, trucks, and boats.

You can request Original Files and New Drivers, update the drivers list and the software. If you choose the Full version, you have everything at your disposal and you are free to remap without restriction.

## ECM TITANIUM Credits.

Activate your ECM TITANIUM software with Credits and choose the operations that interest you the most. Do you need a motorbike or gearbox driver? Use some of your credits only! You maintain control over what you do and, depending on your needs, you can expand your “credit package”.

Feature	ECM TITANIUM CREDIT	ECM TITANIUM FULL / PROMO*

149757EC15	ECM Titanium - 800x Download credit for Driver	560,00 €

# POWERGATE 3+

Powergate3+ is the ECU programming unit that you can configure and customize with your modified files.

**DECODER**

**VERSION**

# POWERGATE 3+ DECODER

Powergate3+ is the ECU programming unit that you can configure and customize with your modified files.  
The tuner purchases a single Decoder which can be used to configure countless User tools which are preloaded with their modified files.

## **Powergate3+ Decoder**

The tool that allows you to configure all the Powergate3+ User to sell to your customers and to associate them to your customer code.  
All the files you modified and uploaded to the device are encoded to protect your work and you have a modified file internal database.

## **Powergate3+ User**

The tool which is sent to the final customer.  
It contains the Original File of the ECU and the modified maps (up to 5 different levels of elaboration) that the customer can write on its vehicles.

Code	Product	Price (EUR)
1400P40000	POWERGATE 3+ - Decoder Unit for Cars	130,00 €

\*1400P3MF15 - OBD Standard Cable included

## Honda Bikes

Code	Product	Price (EUR)
1400P40024	POWERGATE 3+ - User Unit for Honda Bikes (1-49x)	145,00 €
1400P40024	POWERGATE 3+ - User Unit for Honda Bikes (50+)	130,00 €

\*1400P3MF18 - Honda Cable included

# POWERGATE 3+ USER

## Husqvarna Bikes

Code	Product	Price (EUR)
1400P40026	POWERGATE 3+ - User Unit for Husqvarna Bikes (1-49x)	145,00 €
1400P40026	POWERGATE 3+ - User Unit for Husqvarna Bikes (50+)	130,00 €

\*1400P3MF06 - Husqvarna Cable included

## Yamaha Bikes

Code	Product	Price (EUR)
1400P40027	POWERGATE 3+ - User Unit for Yamaha Bikes (1-49x)	145,00 €
1400P40027	POWERGATE 3+ - User Unit for Yamaha Bikes (50+)	130,00 €

\*1400P3MF19 - Yamaha Cable included

## Benelli Bikes

Code	Product	Price (EUR)
1400P40028	POWERGATE 3+ - User Unit for Benelli Bikes (1-49x)	145,00 €
1400P40028	POWERGATE 3+ - User Unit for Benelli Bikes (50+)	130,00 €

\*1400P3MF20 - Benelli Cable included

## USE OF THE TOOLS

This new course will introduce you to the world of remapping, to understand all the applications, stages, basic skills and objectives to achieve thanks to the modification of the engine control unit.

In addition, we will analyze in detail and perform several practical tests to better understand how to use the hardware tools, software and services provided by Alientech.

## ECM TITANIUM: HOW TO USE

Thanks to this course you will have the opportunity to deepen your knowledge of the Alientech ECM Titanium software and to understand the operational strategies used by diesel and petrol engine control units.

We will analyze the many systems present in the new generation engines, to understand how and with which maps the ECU controls the performance developed by the vehicle. In addition, you will understand what are the practical procedures and basic techniques to perform remapping of diesel and petrol engines.

## MORE INFORMATION ON REMAPPING PETROL ENGINES

This course will allow you to deepen even more your skills for the modification of petrol engine control units and to understand what are any limits present in other units, which do not allow you to unlock the maximum potential of the vehicle.

You will understand how to calculate the maximum possible increment on any stock engine and what specific modification procedures have been applied to some selected practical examples. In addition, we will see how to use the software ECM Titanium for the comparison of original files with different powers.

## MORE INFORMATION ON REMAPPING DIESEL ENGINES

This frontal course will allow you to delve even further into your skills for modifying Diesel Engine Control Units and to understand how to avoid various issues such as, for example, torque monitoring.

You will understand how to calculate the maximum possible increment on any stock engine and what specific modification procedures have been applied to some selected practical examples, and then test the modified file created, on the test bench. Finally, we will see how to use the software ECM Titanium for the comparison of original files with different powers.

## DRIVER MAKER: HOW TO USE

This third level course explains the theoretical knowledge and internal file structure used by major ECU manufacturers. You will understand how the original file is stored inside the ECU through the hexadecimal numerical base, how its structure is made in 2D view with the various precisions of usable bits and you will understand what are the various elements that make up the stock file.

In addition to this, there will be the opportunity to learn how to interpret the data in a DAMOS file and the standard map storage structures adopted by the various control unit manufacturers.

You can then get the information you need to enter the correct data with the ECM Titanium Driver Maker plug-in or any other remapping software with similar capabilities, and will put into practice the notions learned thanks to several practical examples with the use of official Alientech software.

## 1<sup>st</sup> level - Training

Code	Product	Price (EUR)
CF00570009	Training - Practical use of the tools	290,00 €
CF00570010	Training - The ECU: theory and communication	290,00 €
CF00570011	Training - ECM Titanium: remapping software	290,00 €

## 2<sup>nd</sup> level - Training

Code	Product	Price (EUR)
CF00570012	Training - Petrol mapping	390,00 €
CF00570013	Training - Diesel mapping	390,00 €

## 3<sup>rd</sup> level - Training

Code	Product	Price (EUR)
CF00570014	Training - Driver development and map analysis in 2D format through the practical use of Driver Maker	980,00 €
